Show me the code.

Comment rendre notre app interactive ?

I want more.

```ts
export class Inertia {
  async render<
    TPageProps extends Record<string, any> = object,
    TViewProps extends Record<string, any> = object,
  >(
    component: string,
    pageProps?: TPageProps,
    viewProps?: TViewProps
  ): Promise<string | PageObject<TPageProps>> {
    const pageObject = await this.#buildPageObject(component, pageProps)
    const isInertiaRequest = !!this.ctx.request.header(InertiaHeaders.Inertia)

    if (!isInertiaRequest) {
      const shouldRenderOnServer = await this.#shouldRenderOnServer(component)
      if (shouldRenderOnServer)
        return this.#renderOnServer(pageObject, viewProps)

      return this.ctx.view.render(this.#resolveRootView(), { ...viewProps, page: pageObject })
    }

    this.ctx.response.header(InertiaHeaders.Inertia, 'true')
    return pageObject
  }
}
```
